Our vision, our message, strategic objectives

Our Vision:

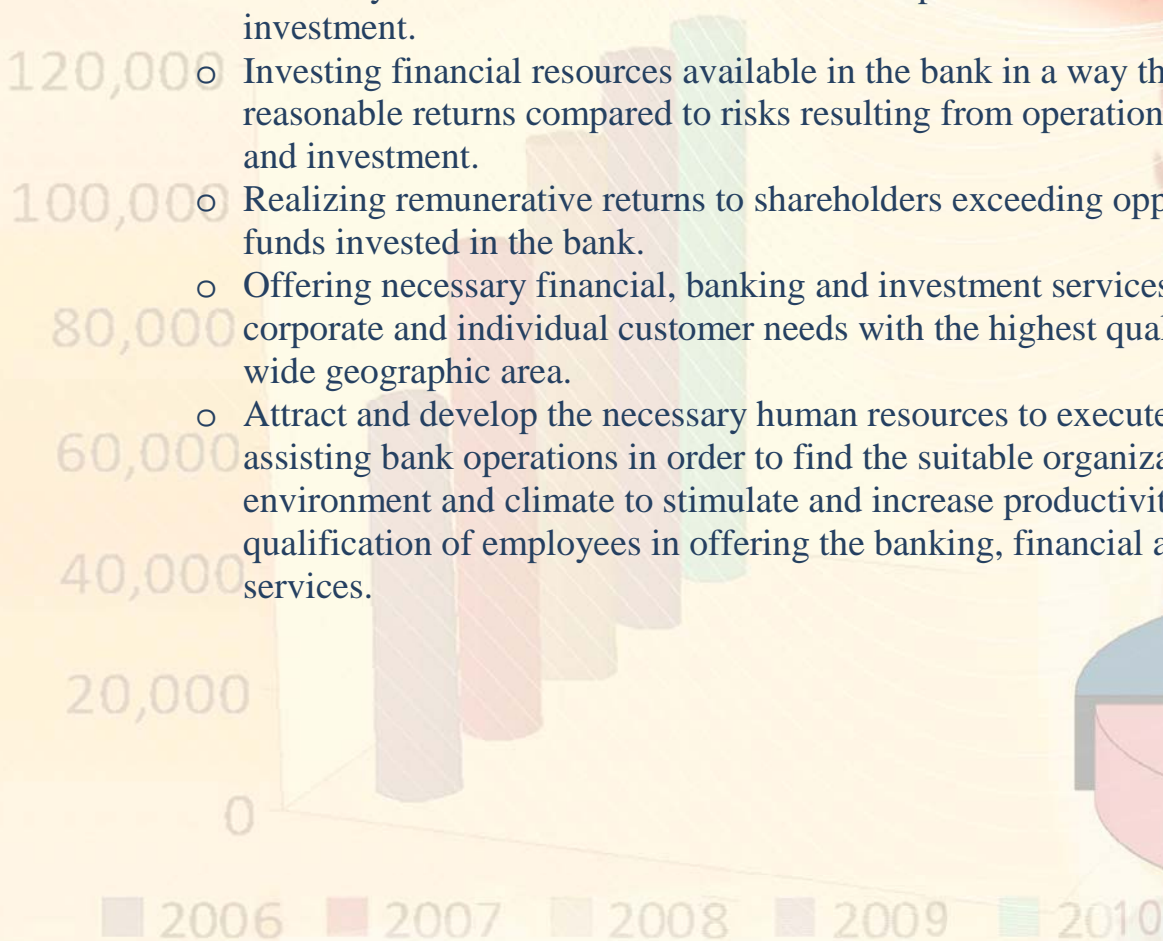

We in the national bank of Yemen , have determined to fulfill all our customers' needs and to be pioneer in providing innovated banking services and products depending on best and modernized banking services techniques in order to be the first choice to customers and become the distinct bank in Yemen.

Our Mission:

The bank is obliged to achieve quality in services and products according to international quality standards, to meet customers needs and achieve objectives and expectations of all those concerned with the interests of the bank, in the framework of comprehensive benefits of society and Yemen economy.

Our strategic objectives:

- Attract deposits and funds from resident and un resident corporations and individuals and working to achieve continued growth rates to ensure the necessary financial resources for the bank's operations in financing and investment.
- Investing financial resources available in the bank in a way that realizes reasonable returns compared to risks resulting from operations in financing and investment.
- Realizing remunerative returns to shareholders exceeding opportunity cost of funds invested in the bank.
- Offering necessary financial, banking and investment services to meet corporate and individual customer needs with the highest quality possible in a wide geographic area.
- Attract and develop the necessary human resources to execute main and assisting bank operations in order to find the suitable organizational environment and climate to stimulate and increase productivity and qualification of employees in offering the banking, financial and investment services.

HIS HIGHNESS DEPUTY FINANCE MINISTER **ACTING CHAIRMAN'S MESSAGE**

On behalf of the Board of Directors, I am pleased to present the annual report of the National Bank of Yemen (NBY) representing the performance result of the financial year 2010, indicating its most important rates and achievements. Regarding monetary policy, the Central Ban of Yemen (CBY) is continuing its policy that aims to avoiding the banking sector the impact of the international financial crisis, in addition to establishing monetary stability and securing a safe level of foreign currency reserves exceeding international level, at the same time supplying the market with its needs of foreign currencies to finance the economic and trading activities. This allowed the CBY to keep an competitive financial and saving instruments in Riyal, avoiding following the development in interest rates on the main currencies.

On another side, and in view of Yemen being importing all its needs from abroad, the need to foreign currency. Due to that, the Y.Riyal registered a retreat against the US Dollar since the beginning of 2010. from 207,31 Y.Riyal to the Dollar, to 213,80Y.Riyal, In light of these developments the CBY undertook procedures aiming to secure stabilization of exchange rates and increasing trust in the local currency through continuing supplying the market with its needs of foreign currency, raising interest rate on Y. Riyal to 20% on 29/3/2010, so that savings in local currency becomes more profitable and more attractive to depositors compared to returns on foreign currency savings, in addition to support stabilization of Y. Riyal exchange rate against the U.S. Dollars.

Regarding the National Bank of Yemen (NBY), the Bank has followed a conservative financial policy, away from unsafely risks and speculations, through following a flexible strategy which took into consideration securing a strong capital and high liquidity, while strengthening NBY's capital base which enabled us to consolidate its financial strength , raise its financing ability, highly improve the quality of its assets and reinforce its profit growth rates.

That strategy and its results enable NBY to preserve its rating – as per sovereignty rate, foreign currency transaction rate and the financial

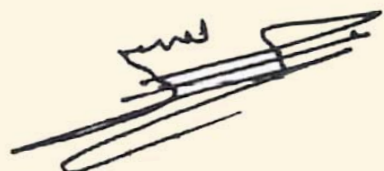

Position strength rate – according to Capital Intelligence report in November, 2010.

The National Bank of Yemen will work, according to its future plans, to continue building on the distinct successes, through achieving excellent profits, with the continuation in increasing the bank's operations and activities, working on the new institutional structure of the NBY, improving human resources, completing and operating the new information technology program to keep up with the latest development in international banking industry and expanding the NBY's services and products, presenting in a better levels, including the Islamic banking services, and products, by virtue of the distinct partnership relations between the bank and its customers and the owner (Yemen Government) and those whom it deals with and their role in the NBY's continuous success and development.

Finally, I would like to express my thanks and high respects, in the name of myself and on behalf of the board of directors, to His Excellency President Ali Abdulla Saleh, the president of the Republic, and to his Highness the Prime minister, the minister of finance the governor of the Central Bank of Yemen and all ministers and officials for their roles and efforts to supporting the procession of the national economy.

I am also pleased to express my thanks to our customers for their valuable trust which we always respect.

I should also not miss to express my thanks to the NBY's executive management and all employees for their faithful efforts aiming to develop NBY's abilities and achieving more success.

AHMED OBEID ALFADHLY
DEPUTY FINANCE MINISTER
ACTING CHAIRMAN

THE BOARD OF DIRECTORS ANNUAL REPORT 2010

In the occasion of the end of operation for the year 2010, the board of directors is pleased to present to you the Annual Report containing the operations and results of the National of Yemen (NBY) with the audited financial statement for the year ending 31/12/2010.

We expected that the year 2010 would be full of challenges. Therefore, the NBY continued to adopt a conscious work by carefully assessing the different risks before adopting and executing the strategical operation plans, Contrary to operation plans, we evidenced decline in the expected growth rates for 2009 due to negative impact of the economic and financial crisis and reflexion upon Yemen banking sector and national economy in general.

The NBY has faced, as all world banks, the side effects of the economic crisis, but our adhering to a conservative banking and financial policy which depends on balanced procedures, and complying with a conservative banking policy, proved that it is the best methods of a booking operation. This helped us to lighten and reduce the negative effects of the crisis.

The year 2010 is distinguished by the numerous achievements which the NBY is proud to attain; the most important of these achievements was the preserving of the quality and solidity of its assets and the increase of owners' equity. The matter which increased capital efficiency rate to become one of the best book capital efficiency rates in the world, reinforcing the NBY financial strength and attain high credit rating levels which is granted one of the biggest international rating institutions which agreed not to change its rating because of its stable aspirations towards the future of the NBY. This international rating institution (Capital Intelligence) in its report issued in November, 2010 – has preserved its rating of the National Bank of Yemen the (sovereign Rating) from (B-) to (B) and the (foreign currency) –Long Term) rating from (B-) to (B)

The international rating institution also, in the same report, kept on its rating of (BB) for the strength and solidity of the financial position (financial strength) of the NBY

It also mentioned in its report that this rating is the (highest in the country).

The report also included that the (future outlook) for the ratings of the NBY is (stable) for the foreseen years.

The capital intelligence institution stated in the same report that the main effective factors in raising the ratings of the NBY were as follows:-

- *Steady performance over many years.
- *Very liquid asset profile
- *High capital efficiency rate exceeding national and international requirements.
- *Continuous stability for several years is size of customer deposits.
- *A bank fully-owned by the government 100%

Good Governance

The NBY believes in practicing a comprehensive governance plan according to the best banks practices. With the aim of raising the transparency level, enforcing the level of risk management, and practicing high level auditing and follow –up standards. In the framework of organizing and managing the bank, the board of directors continue to complete a number of rules , systems and procedures that enforces the trust in the bank and its different activities, creating harmony in the bank as per the board's tasks and responsibilities, its committees, the task and responsibilities of management, developing an internal control and monitoring environment and risk management in addition to transparency and disclosure.

Owners (Yemen Government):

The owner's role was not only restricted to increasing capital, but it exceeds that to including decision-taking, endorsing them and adopting strategic plans and

NBY Board of Directors:

The NBY management is conducted by a board of directors consisting of six members including is the chairman who is nominated by a Republican Resolution, with independent and executive members, nominated by the Cabinet Resolution, No. 60 of the year 1995 relating to the formation of the NBY board of directors, The board held fourteen meetings during the year 2010. The board bears all responsibilities relating to the safety of the bank's financial operations, ensuring fulfillment of the NBY requirements, other relative control authorities and benefits of both the owners, depositors and employees, especially ensuring the NBY performance and that the work goes according to the valid laws and internal policies and systems of the bank.

The board of depicts the strategic objectives of the NBY in addition to control on executive management on which rests the responsibility of the daily operations. The board also ratifies the internal auditing system and be

sure of their efficiency and the level of the NBY's complying with strategic plans, policies and procedures ratified or required by law and instruction issued, ensuring that all risks on the bank have been properly managed.

The following two tables show the position of every member of the board of directors according to

The resolution of forming the board:

Name of board member	Position in the board	Body represented	Classification of member
Abdul Rahman M. Alkuhali	chairman	Owners	Non-executive
Sami Abdulhamid Mackawi	Board member	Owners	Executive
Abdulla Abdo Saleh	Board member	Ministry of Finance	Non-executive
Dr. Samir A. Razaq	Board member	Ministry of Planning and International Cooperation	Non-executive

Main Board Committees:

To meet the requirements of the Central Bank of Yemen, and to achieve best performance, benefiting from the different experiences of the board members, the board have formed two committees to support its performance. These are Provisions Committee. It contains of three non-executive members chosen by the board. Its duties are indicated according to related Central Bank of Yemen directives. Upon this committee rests the responsibility of revising the provisions formed by the executive

management, assuring that the efficiency and calculations are according to the policies and standards issued by the specialized controlling body. The committee meetings are continually attended by the credit manager. The committee held four (4) meetings during the year 2010 attended by its chairman and members as shown by the following schedule:-

Name	Position	No. of meetings attended
Abdulla Abdo Saleh	Committee chairman	4
Moqbil Saleh Alqusi	Member	2
Dr. Samir A. Razaq Taleb	Member	4

Higher Surveillance Committee:

The committee practices the duties and responsibilities entrusted to it according to the central Bank of Yemen directives and any other relative statutes. This includes: scope, results and extent of internal and external efficiency of accounting matters with prominent effect on the financial statements, studying all work relating to the external auditor and the relative controlling bodies –including their remarks, opinions, cautions and following the extent of the management's respond, giving their relative recommendations to the board. It also reviews correspondence with external auditor and the relative control bodies, evaluating its contents, expressing remarks, and recommendations to the board. Also studying the periodical reports relating to auditing systems before presenting them to the board with relative recommendations; and authorizes the internal audit plan, evaluating the internal auditing procedures, reviewing the internal audit reports, especially those relating to any contraventions shown due to internal audit work. In addition, to presenting recommendations to the board relating to nominating, termination of service and fees of the external auditor and any other relating contracting conditions.

Higher Surveillance Committee is formed of a non-executive chairman chosen from board members, and two non-executive members from outside the bank. Surveillance Committee is continually attended by the internal audit manager. The committee held two meetings during the year 2010 attended by its chairman and members, as shown by the schedule below:-

■ 2006 ■ 2007 ■ 2008 ■ 2009 ■ 2010

Name	Position	No. of meetings attended
Abdulla Abdo Saleh	Chairman	2
Moqbil Saleh Alqusi	member	2
Dr. Samir A Razaq Taleb	Member	

Internal Control

The board of directors undertakes its responsibilities based on a general framework of internal control with an aim of ensuring efficiency of operations, substantiations of financial reports, and complying with the effective laws and directions. The board assures existence of a general framework of internal control having characteristics enabling it to follow-up its duties and takes whatever procedures necessary with the following framework:-

1. Internal Auditing:-

The internal auditing of the NBY, which works under the supervision of the high surveillance committee, adopts a method depending on auditing based on classifications of risks in undertaking independent audit operations of the bank's activities. Most bank activities and its organizational units undergo periodical auditing process. This method allows undertaking efficient evaluating procedures of its operations and identifying probable risks;

The NBY maintains efficient technical standards, suitable practices, moral behavior and efficient internal auditing system. In order to minimize risks, presents suitable recommendations to correct positions of weakness, in addition to following up breaches and comments in the reports of the control authority and the external auditor, ensuring undertaking of proper deterrents by executive management so that breaches do not recur, in order to ensure that NBY's activities are within requirements of the supervisory and controlling authority.

Reports are regularly submitted to the board concerning the NBY's financial position, operational results and activities, besides controlling and following up of actual performance achieved compared with the part related period against the specific objectives.

The NBY follows the international (financial Reports Standards (IFRC) in preparing the financial accounting statements, in the light of the rules of the relative laws and by-laws effective in Yemen. The NBY's quarterly, half

yearly, and yearly operations results are published in the main Arabic and English newspapers in the Yemen Republic.

The board is presently assisted by one of the international consulting firms, as part of its responsibilities, to modernize the internal auditing procedure, conforming to the NBY's new organization.

2. External Auditing:

The external auditor represents another level of auditing on the extent of the reality of the financial statements issued through the bank's accounting and information systems, especially relating to giving a clear and declared opinion on the extent of fairness of the financial statements, and whether it represents the actual position during a certain period. In its dealing with the external auditors, the board considers their positions and reputation as to the professional skills possessed for the benefit of the bank. The bank follows the necessary procedures in nominating external auditors according to the directives of the Central Bank of Yemen.

The nomination of the bank's external auditors is on yearly basis. The bank has nominated M/s Dahman RSM as an external auditor for the year 2010, after the approval of the Central Bank of Yemen.

3. Risk Management:

The bank continues to develop and promote the risk management framework in order to enforce and strengthen the bank's capability to be more alert with controlling environment and confront different kinds of risks. The bank management have taken practical steps to achieve this, that is through establishing a management department in the new organization structure of the bank., and prepared a procedure guide with risk management policies, including credit risk, market risk, liquidity risk and operations risk according to Basel II requirements and the best practices in banks. These practical steps are meant to develop the means and methods of measures and systematic work for every kind of risk and securing the quality of credit and investment portfolio.

Financial Position:

Efforts continued to keep on the equilibrium between profitability and safe investment, avoiding investments and credit operations which bear high risks, securing necessary cash liquidity to pace financial liabilities of different terms and the best employment of available funds with adequacy and efficiency which is represented in supporting the bank's financial position and achieving increased growth in the income strength of the bank.

At the end of 2010, total assets amounted to YR109, 4 billion, representing an increase of 4 billion with a rate of growth of 3.8%. Cash on hand and reserve balances with the Central Bank of Yemen increased by 3.6% local investments increased by 9.6 while balances with banks decreased by 4.4%. Also, net loans and advances decreased from YR.9.4 billion at the end of 2009 to YR 8.3 billion, at the end of 2010 YR.1.1 billion i.e. 11.7% Irregular loans and advances as at end of 2010 amounted to 36.4% of total loans and advances. Compared to 27.0% at the end of last year. Provision rate – without taking into consideration the general provision- amounted to 98.3% as at 2010 compared to 96.4% end of 2009..

Customers' deposits, which amounted to YR91.8 billion as at end of 2010, registered a slight increase amounting to YR.2 million compared to last year. An increase of 2.2% and, with the modest growth of total deposits during 2010, but the real growth lies in the decrease of dependence on costly deposits and increasing the dependence on costly deposits and increasing the dependence on deposits on demand and cash margins which had a positive effect in improving profitability by lowering the cost finance cost.. Contra accounts and other liabilities amounting to YR22.9 billions net at the end of 2010 have registered an increase of YR3.0 billion compared to end of 2009.

Equity:

Efforts continued to develop owners' equity (Yemen Government) to increase to YR 13.6 billion at the end of 2010 with a growth rate of 12.4 compared to 2009. The bank observed a high rate of capital adequacy reaching 67% compared to Central Bank of Yemen requirements and the requirements of Basle committee of 8%..

Financial and Operational Performance:

Profits for the year 2010 amounted to YR. 2,076 million with an increase of YR.637 million compared to achieved profit for 2009, i.e. equivalent to 44.3% as a result of the good growth in returns from the main banking activities. The net income of interest at the end of 2010 amounted to YR.4,139 million with an increase of YR270 million compared to 2009 at a rate 7,0%. Income from commissions, fees and other operation income registered YR1, 495 million with an increase of YR216 million compared to 2009, i.e. equivalent to 17%.

The main reason for this increase is to the increase in the total operation income , especially the provisions for loan losses and off-balance-sheet terms

became unneeded, which increased at the end of 2010 by YR.476 million compared to last year.

Administration and general expenses increased by YR208 million at the end of 2010 with a rate of 13% from YR1,596 million in 2009 to YR1,804 million in 2010.

Provisions on irregular loans and advances and other assets decreased at the end of 2010 to YR1,041 million compared to YR1,189million, with a decreasing rate of 12.4% compared to 2009.

Basic share profit amounted to YR219 in the year 2010 compared to YR164 in 2009 with an increase of YR55.

Main Bank Activities:

The NBY mainly performs all banking work and investment through three main activities: retail, corporate and investments through a branch – network of 28 branches distributed between the main cities and governments by the Republic.

Retail Services to Individuals:

Group of banking services to individuals continued concentration on developing banking services and products. The bank offered prepaid ATM cards which help customers minimize cash use. The bank also continues expanding its ATM network to spread geographically and support developing this service.

On loans products, the bank continued to offer its competitive options for personal loans and car loans. The bank has also put the real estate product to match with the strong growth of real estate sector in out country, aiming to help a wider section of people to own homes and housing units. The bank also reinforced a program to finance electronic apparatuses such as computer units and others, in addition to financial leasing, through attractive terms, such products have continued in a notable increase in the personal loans portfolio during the year.

During the year 2011 and in the framework of the strategy which aims at expanding customer base and attracting new category of customers , NBY would continue developing a group of banking products and services for individuals, introducing new products and services with added features and characteristics, depending on the study of actual customers' needs, fulfilling them through introducing a specialized department in the new organizational structure of the bank , working on developing new modern services and products that meet the actual needs of different segments of

customers. In addition to developing and improving services delivery channels with modern and developed manners, through completing and operating the new information technology system which would be able to increase services levels, and gain customer satisfaction.. The bank also gives concern to motivate its employees to give more effort to keep up with advanced technical standards in performing operations and continue increasing the level of the banking retail product.

Corporate Banking Services:

The corporate banking services consist of offering services to the trading, industrial and financial companies. Such activities require offering special needs and significant services represented in building relations with customers, through providing experience and important services, offering significant banking services and products compared to competitors. Besides, concentrating on big customers through offering distinct services to them, with aim of acquiring a bigger portion of this activity and expanding our market portion the bank would continue offering an integral group of banking services, finance all activities and commercial and industrial projects to fulfill the needs of such segment of customers and enforce the bank's pioneer role in a number of banking activities. The new organizational structure of the bank includes establishment of specialized departments, organizing treasury and the centralization of risks.

Credit, investment and bank marketing management with an aim of achieving specific innovation in customer –relation management.

Treasury and investment Management:

During the year 2010, treasury and investment department continued concentrating on the bank's customers, taking care of them and their interests through offering them high-level services, in addition to developing its services and diversify its investments to achieve excellent returns from internal and external investment.

The treasury and investment works actively in the field of liquidity management, according to the approved policies and directives of the assets and liabilities committee. The bank management took practical steps to develop the treasury and investment operations, offering significant services to customers in future, through establishment of a treasury and investment department in the new organizational structure of the bank, obtaining assistance from an international consulting firm as part of its

responsibilities to modernize policies, procedures and manuals relating to treasury and investment to confirm with the new organization of the bank.

International Banking Relations:

The foreign relations department had in 2010, a significant role in supporting and facilitating trade operations, contributing in increasing the bank's profits, expanding and developing significant banking relations, with a network of largest banks with the credit-worthiness, high solvency rates and excellent performance the department's efforts have been combined to intensify effective and efficient communications with an aim of facilitating the bank's international transactions with its correspondents in the field of individual or corporate banking with its customers of international institutions. With a competitive service price, concentrating on service quality, enabling the bank getting new credit lines helping to increase international trade transactions with bank correspondents, qualifying it to benefit from new business chances and increasing its portion in the local banking market of foreign trade transactions, enabling the customers expand their trade activities. During the year 2010, delegations from eleven (11) banks and financial institutions visited the NBY. The bank expanded its correspondents' network by making correspondent relations with five (5) new banks and banking institution worldwide.

Credit and risks department:

The risk department is concerned with following-up and controlling credit risks, market risks and operations risks according to the approved policies and procedures which aim to minimize total and special risks which face the banking operations in credit, investment and operations, limiting credit risks in general, thus following a conservative credit policy, retaining a reasonable rate of total loans and advances to total deposits. In addition to sectoral and geographical diversity to minimize risks that might result from environmental factors out of the intentions of customers and diversity in advances activities to avoid concentrations and limiting relative risks, following clear credit policies and procedures which the head office departments practice control and follow-up to see their adoptions in all branches, the credit department and the administrating unit of the credit risk management.

Concerning operation risk management, the general framework of operations risk management is based on defining events related to operation risks, defining the updating risk rates and combining and evaluating figures

resulted from operation risks and implementing a strategy to develop and modernize information technology systems, in order to limit operation risks which might result from transactions in such systems, In addition to apply a business continuity plan to minimize operation risks resulting from work stoppage due to either technical systems break-down or causes relating to the external environment of the bank, establishing an information technology safety unit to limit risks resulting from misuse of information technology systems or entering to these systems with suspicious purposes. Also, modernizing the policies and procedures of investigations unit to avoid operation risks resulting from money laundering transactions. Also, implementing policies and procedures for all activities of the bank for the purpose of defining responsibilities and reinforce internal control, through giving a controlling role on operations to the financial control department, branches department and the central operations department, because such control is of the approved main methods to minimize operation risks. In addition to enforcing the role of internal auditing through expanding the structure and duties of the internal audit department so as to keep pace with the best practices in banks.

Concerning market risks, and for the purpose of not encountering unreasonable risks, the general framework of the operation risks in the bank rests on establishing a market risk management unit, the duties of which is putting headlines of market risks, putting and modernizing market risk limits, controlling exposures to market risks and complying with the specified limits.

As for liquidity risks, the bank adopts procedures and policies to control and manage liquidity which ensures the bank's ability to finance its operations efficiently and fulfilling its current and future probable obligations, such as loans, emergency obligations and unexpected withdrawing from deposits. The treasury department, assisted by other sections in the bank, daily undertakes the responsibility of managing liquidity as the bank aims at assuring a high rate of liquidity by maintaining a volume of loans and advances not exceeding 30% of total deposits. The bank deals with interest rates risks through conforming re-pricing assets and liabilities with the different means and operations within the given gap limits, keeping as height net interest margin. The bank also aims at achieving equilibrium between the possible re-priced assets volume and the possible re-priced liability volume, therefore, ensuring that any variation in income of such

assets would be met with a similar variation and in the same rate, in the cost of deposits to a big extent.

In foreign currency risks, the bank aims at maintaining the present strategy imposing not to maintain foreign currency positions exceeding the rates limited by the Central Bank of Yemen, and thus avoiding fluctuations of prices rates.

The bank also aims at continually trying to create the entire equilibrium between its total assets of a certain currency with its total liabilities of the same currency, or, in case of being unable to create such equilibrium, work on reducing the margin, positively or negatively, to its minimum limit.

Commitment:

Commitment aims at ensuring that the bank and its internal policies abide by all laws, systems, directives, rules or behavior and the standard and sound banking practices issued by the local and international bodies which identifies, evaluates and provides advice and guidance watches and submits a reports to the board regarding the level of abeyance in the bank.

The commitment risks are represented in the legal punishments or material losses or reputation risks which the bank could be expressed to, due to non-compliance with laws, systems, instructions, behavior rules, standards and the sound banking practices. . . .

In the field of the efficient combating of money laundering activities, the investigation unit in the bank performs periodical watch of all financial transactions according to the laws and instructions of the Central Bank of Yemen.

Information Technology:

The year 2010 witnessed the continuation of information and systems department working on development and raising the level of quality of the services of the bank offered through the new additions to the SWIFT system and the current banking system in branches to executed more operations using the automated systems.

The department also continued its concentrations on equipping the infrastructure of the systems, networks and contracting lines to match with the new techniques development in the bank's operations and implementing the new banking systems.

On the other hand, during the year 2010, the bank completed procedures of choosing the new banking system for the Islamic department and branches which is designed by one of big international specialized companies in the

field of banking systems, with specifications that agreed with the banking developments, technology and the new structure of the Islamic department and branches, with the aim of developing the ability of the bank to meet the rapid developments in the Islamic banking operations and presenting distinguished banking services and products compared to other Islamic bank competitors.

In addition, the bank continued, in 2010, to expand the aim network by erecting and operating new AIMS, all connected to the customers' accounts and the Yemen financial services company specialized in the field of electronic payment transactions and issuing electronic payment cards.

Developing Human Resources:

Due to the NBY's belief in the importance of the human factor in the level of service offered to a customer, and the importance of this factor in taking the bank to more advanced positions in the banking market, the bank management, during 2010, adhered to continue to take initiatives which contribute in making a significant move in the performance of the human resources and achieving a high level of employees satisfaction. In the course of the bank's strategy represented in providing banking education to a wider level, for the purpose of providing the professional skill observations of the human resources in the bank, acquainting them with the latest developments locally and internationally, with an aim of enhancing performance of human resources and raising their production, the bank provided 499 training opportunities, including different management levels in the bank inside and outside the Yemen Republic, in a number of essential fields such as: credit, risk management, internal auditing, Islamic banking, banking management through branches, information technology, marketing and negotiation skill and modern methods in human resources management.

Within this strategy, the bank is continuing attracting and employing the best qualified and experienced employees in different posts in the new administrative systems of the bank, concentrating on this respect, because of the long level benefit and interest of the bank.

During the year 2010, the bank have worked on improving the human resources management through restructuring, developing manuals and procedures within the new organizational structure, getting assistance from an international consulting firm to modernize policies, procedures and work guides relating to human resources management among the new

organization of the bank and developing the qualifications of the human resources, to meet the best practices in banks.

Customer Service:

In a fixed plan, the NBY continued in implementing the development and modernization project aiming to offer significant banking services and increasing and improving customers level of satisfaction, where the bank management devoted to include in the new organization structure, restructuring of branches as points of sale to customers according to the variations in modern banking, and increasing distribution channels efficiency in the framework of the information systems project through developing the bank's electronic services which would facilitate for customers having access to their accounts and implementing their banking transactions easily through a number of electronic channels, In addition to developing AIM customers to work in harmony with the modern international systems, continuing to expand the AIM, network, Besides that, and with the intention to extend the bank's services with traders, the bank would distribute points of sale apparatuses in different top trading stores at Republic level.

The bank would also continue to expand its traditional branches network and open new specialized branches offering Islamic products and services to customers, continuing to implement loans and finance programs either to individuals or to development projects which serve the economic development, and expanding in the scope of services offered to its customers and improving its quality.

Social Responsibility:

NBY takes responsibility to support a number of activities on social level, and as part of its responsibility, the bank offers financial support which affects positively on the society from various important sides, such as:

Arts, culture, social and human affairs, sponsoring youth, education, sports and economic activities. In addition to sponsoring a number of activities .in honoring distinctive students in different education institutions in the republic.

In addition to financial support, during the year 2010 the bank participated in a number of economic conferences and different social seminars, programs and activities. The employees also participate in different events and occasions sponsored by the bank.

The Bank Plan for 2011:

- Continuation in diversifying and developing banking services, concentrating on offering and integrated group of traditional an Islamic banking services and products compared to the best international regional and local banks.
- Establishing branches offering banking transactions complied to Islamic Shariah to offer Islamic services and products to customers and the public.
- Implementing the new organizational structure of the bank.
- Implementing the best practices in banks regarding risk management, which would allow the bank to monitor and control credit risks and operation risks
- Installation and operation of new AIMS connected with customers accounts and with Yemeni services company which is specialized in electronic payments and issue of electronic payments cards.
- Completing the infra-structure of systems, networks and communication lines in order to match with the new techniques and developments in the banking operations.
- Implementing the new banking system which will replace the current system and which would be more compatible to face the rapid developments in the bank operations and more complying with the banking and technologic developments and the structuring of the bank.
- Developing the principles of institutional governance of the bank.
- Expansion in the present branches network of the bank to cover the Yemen local market of all customers, individuals, private and public establishments.
- Continuation in raising human resources performance , providing good education and training opportunities to different management levels in the bank and continuing to attract and employ the best qualified and experienced employees in different positions in the new organizational structure of the bank so as to double the professional capabilities in all fields.

With our expectations that the year 2011 would be full of changes and challenges both locally and internationally, but, we have trust in the ability of the bank to achieve more successes on all sides of the banking works, whether through offering services and products that match with the needs of out customers, or through continuing distinct financial performance and growth.

Finally, the board of directors is pleased to express its thanks and appreciations to His Excellency Ali Abdulla Saleh, the President of the Republic, for his national economy support, and to our esteemed government for their support and encouragement of the economy and the banking sector in Yemen

The board also expresses its thanks and respects to the minister of finance and the governor of the Central Bank of Yemen and all who work with them for their directives and continued support.

Lastly, we are pleased to thank our customers for their valued confidence which we always respect and are proud of. We should also not forget to express our obligations to the executive management and all employees of the bank for their loyal efforts with the aim of developing the bank's ability and achieve greater success.

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the National Bank of Yemen (The Bank) which comprise the statement of financial position as at 31 December 2010, the related statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing and related Yemeni laws and regulations. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the National Bank of Yemen as at 31 December 2010, and its financial performance, the changes in equity and cash flows for the year then ended in accordance with International Financial Reporting Standards and related Yemeni laws and regulations.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

We have obtained all the information and explanations which we required for the purpose of our audit. We also confirm that, in our opinion, proper accounting records have been kept by the Bank and the accompanying financial statements are in agreement therewith. We further report that during the course of our examination we have not become aware of any material violations to the provisions of the Banks Law No. 38 of 1998, Commercial Companies Law No. 22 of 1997 and its amendments, the Public Companies, Establishments and Corporations Law No. 35 of 1991 or guidelines of the Central Bank of Yemen that could have had significant adverse effects on the Bank's operations or its financial position for the financial year ended 31 December 2010.

The Bank's Board of Directors, in its meeting held on 15 April 2007, resolved to increase the share capital of the Bank to YR 10,000,000 thousands. H.E. the Minister of Finance has approved this increase in the share capital. The share capital will be raised from the Government's share of profit at the end of each year as the Board of Directors will decide until the amount of the share capital reaches YR 10,000,000 thousands.

The Bank's management resolved the transfer of the amount YR 150,682 thousands from general reserve and the amount 849,318 thousand from the Government's share of profit of the year to the share capital. With this the share capital of the bank is YR 10,000,000 thousands.

The attached notes 1 to 39 form an integral part of these financial statements.

2006 2007 2008 2009 2010

1 INCORPORATION AND ACTIVITY

The National Bank of Yemen (the Bank) was incorporated in Aden in 1969. It is wholly owned by the Government of Yemen and is registered under commercial registration number 1748.

The Bank undertakes all banking activities through its head office and 28 branches spread all over the Southern and Eastern Governorates and through two branches in Sana'a, and one branch in each of Hodeidah and Taiz. The Bank carries out banking retail activity in the Republic of Yemen.

The Head Office of the Bank is located at Queen Arwa Street. Its postal address is P. O. Box 5, Crater, Aden, Republic of Yemen.

The number of employees with the Bank as on 31 December 2010 was 738 (31 December 2009: 797 employees).

2 SIGNIFICANT ACCOUNTING POLICIES

2-a Basis Of Preparation Of Financial Statements

The financial statements have been prepared on a historical cost basis, except for the available for sale investments, financial assets and financial liabilities held at fair value through profit or loss and that have been measured at fair value. The financial statements are presented in Yemeni Rials and all values are rounded to the nearest one thousand Yemeni Rial except when otherwise is indicated.

The disclosure on risks from financial instruments are presented in Risk Management report in note 3-b

The statement of cash flows shows the changes in cash and cash equivalents arising during the year from operating activities, investing activities and financing activities. Cash and cash equivalents include highly liquid investments. Note 27 shows in which item of the statement of financial position cash and cash equivalents are included.

The cash flows from operating activities are determined by using the indirect method. Profit for the year is therefore adjusted by non-cash items, such as measurement gains and losses, changes in provisions, as well as changes from receivables and payables. In addition, all income and expenses from cash transactions that are attributable to investing or financing activities are eliminated. Interests received or paid are classified as operating cash flows.

The cash flows from investing and financing activities are determined by using the direct method. The Bank's assignment of the cash flows to operating, investing and financing category depends on the Bank's business model (management approach)

Statement of Compliance

The financial statements are prepared on a going concern basis in accordance with International Financial Reporting Standards (IFRS) as adopted by the International Accounting Standards Board (IASB) in force as at 31 December 2010 and the interpretations of the International Financial Reporting Interpretations Committee (IFRIC) of the IASB in force as at 31 December 2010, the requirements of the current local prevailing laws and regulations and the rules and instructions issued by the Central Bank of Yemen including those covered by the Central Bank of Yemen circular no. 2 of 2002 regarding the format of the financial statements.

a) *New and amended standards, and interpretations mandatory for the first time for the financial year beginning 1 January 2010 and not early adopted.*

The following standards and amendments to existing standards have been published and are mandatory for the Bank's accounting periods beginning on or after 1 January 2010 or later periods, but the Bank has not early adopted them. These standards are not currently relevant to the Bank's operation (although they may affect the accounting for future transactions and events).

- *IFRS 5 (amendment), 'Non-Current Assets Held For Sale And Discontinued Operations'*

The amendments to IFRS 5 clarify that the disclosure requirements in IFRSs other than IFRS 5 do not apply to non-current assets (or disposal groups) classified as held for sale or discontinued operations unless those IFRSs require (i) specific disclosures in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations, or (ii) disclosures about measurement of assets and liabilities within a disposal group that are not within the scope of the measurement requirement of IFRS 5 and the disclosures are not already provided in the consolidated financial statements.

The amendment also clarifies that all the assets and liabilities of a subsidiary should be classified as held for sale when the Bank is committed to a sale plan involving loss of control of that subsidiary, regardless of whether the Bank will retain a non-controlling interest in the subsidiary after the sale.

- *IAS 1 (amendment), 'Presentation Of Financial Statements'*

The amendments to IAS 1 clarify that the potential settlement of a liability by the issue of equity is not relevant to its classification as current or non-current.

- *IAS 7 (amendment), 'Statement Of Cash Flows'*

The amendments to IAS 7 specify that only expenditures that result in a recognised asset in the statement of financial position can be classified as investing activities in the statement of cash flows. The application of the amendments to IAS 7 has resulted in a change the presentation of cash outflows in respect of development costs that do not meet the criteria in IAS 38 "Intangible Assets for capitalisation as part of an internally generated intangible asset".

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-a Basis of Preparation of Financial Statements (Continued)

Statement of Compliance (Continued)

a) *New and amended standards, and interpretations mandatory for the first time for the financial year beginning 1 January 2010 and not early adopted.(continued)*

- *IFRS 3 (revised), 'Business Combinations'*

As part of Improvements to IFRSs issued in 2010, IFRS 3 (2008) was amended to clarify that the measurement choice regarding non-controlling interests at the date of acquisition (see above) is only available in respect of non-controlling interests that are present ownership interests and that entitle their holders to a proportionate share of the entity's net assets in the event of liquidation. All other types of non-controlling interests are measured at their acquisition-date fair value, unless another measurement basis is required by other standards. In addition, as part of Improvements to IFRSs issued in 2010, IFRS 3 (2008) was amended to give more guidance regarding the accounting for share-based payment awards held by the acquiree's employees. Specifically, the amendments specify that share-based payment transactions of the acquiree that are not replaced should be measured in accordance with IFRS 2 Share-based Payment at the acquisition date ('market-based measure').

- *IAS 27 (revised), 'Consolidated And Separate Financial Statements'*

The revised IAS 27 specifies that when control of a subsidiary is lost as a result of a transaction, event or other circumstance, the revised Standard requires the Group to derecognise all assets, liabilities and non-controlling interests at their carrying amount and to recognise the fair value of the consideration received. Any retained interest in the former subsidiary is recognised at its fair value at the date control is lost. The resulting difference is recognised as a gain or loss in profit or loss.

- *IAS 28 (revised), 'Investments In Associates' And IAS 31, 'Interest In Joint Ventures'*

As part of Improvements to IFRSs issued in 2010, IAS 28 (2008) has been amended to clarify that the amendments to IAS 28 regarding transactions when the investor loses significant influence over an associate should be applied prospectively.

- *IFRS 1 (amendment), 'First-time adoption of International Financial Reporting Standards'*

The amendments provide two exemptions when adopting IFRSs for the first time relating to oil and gas assets, and the determination as to whether an arrangement contains a lease.

- *IFRS 2 (Amendment), 'Group Cash-Settled Share-Based Payment Transactions'*

The amendments clarify the scope of IFRS 2, as well as the accounting for group cash-settled share-based payment transactions in the separate (or individual) financial statements of an entity receiving the goods or services when another group entity or shareholder has the obligation to settle the award.

- *IAS 39 (Amendment), 'Financial Instruments: Recognition And Measurement'*

The amendments provide clarification on two aspects of hedge accounting: identifying inflation as a hedged risk or portion, and hedging with options.

- *IFRIC 17, 'Distributions Of Non-Cash Assets To Owners'*

The Interpretation provides guidance on the appropriate accounting treatment when an entity distributes assets other than cash as dividends to its shareholders.

- *IFRIC 18, 'Transfers Of Assets From Customers'*

The Interpretation addresses the accounting by recipients for transfers of property, plant and equipment from 'customers' and concludes that when the item of property, plant and equipment transferred meets the definition of an asset from the perspective of the recipient, the recipient should recognise the asset at its fair value on the date of the transfer, with the credit being recognised as revenue in accordance with IAS 18 'Revenue'.

- *IFRIC 9, 'Reassessment Of Embedded Derivatives And IAS 39, 'Financial Instruments: Recognition And Measurement'*

This amendment to IFRIC 9 requires an entity to assess whether an embedded derivative should be separated from a host contract when the entity reclassifies a hybrid financial asset out of the 'fair value through profit or loss' category. This assessment is to be made based on circumstances that existed on the later of the date the entity first became a party to the contract and the date of any contract amendments that significantly change the cash flows of the contract. If the entity is unable to make this assessment, the hybrid instrument must remain classified as at fair value through profit or loss in its entirety.

- *IFRIC 16, 'Hedges Of A Net Investment In A Foreign Operation'*

This amendment states that, in a hedge of a net investment in a foreign operation, qualifying hedging instruments may be held by any entity or entities within the Bank, including the foreign operation itself, as long as the designation, documentation and effectiveness requirements of IAS 39 that relate to a net investment hedge are satisfied. In particular, the Bank should clearly document its hedging strategy because of the possibility of different designations at different levels of the group.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-a Basis of Preparation of Financial Statements (Continued)

Statement of Compliance (Continued)

a) *New and amended standards, and interpretations mandatory for the first time for the financial year beginning 1 January 2010 and not early adopted. (continued)*

- *IAS 38 (amendment), 'Intangible assets', Effective 1 January 2010,*

The amendment clarifies guidance in measuring the fair value of an intangible asset acquired in a business combination and permits the grouping of intangible assets as a single asset if each asset has similar useful economic lives.

- *IAS 36 (Amendment), 'Impairment Of Assets'*

The amendment clarifies that the largest cash-generating unit (or group of units) to which goodwill should be allocated for the purposes of impairment testing is an operating segment, as defined by paragraph 5 of IFRS 8, 'Operating segments' (that is, before the aggregation of segments with similar economic characteristics).

b) *New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2010 and not early adopted:*

For the avoidance of doubt, the following standards, amendments and interpretations, which were issued by IASB before 31 December 2010 and are not yet in effect, have not been adopted early:

- *IFRS 9: 'Financial Instruments Part 1: Classification And Measurement'*

IFRS 9 was issued in November 2009 and replaces those parts of IAS 39 relating to the classification and measurement of financial assets. Key features are as follows:

- Financial assets are required to be classified into two measurement categories: those to be measured subsequently at fair value, and those to be measured subsequently at amortised cost. The decision is to be made at initial recognition. The classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.
- An instrument is subsequently measured at amortised cost only if it is a debt instrument and both the objective of the entity's business model is to hold the asset to collect the contractual cash flows, and the asset's contractual cash flows represent only payments of principal and interest (that is, it has only 'basic loan features'). All other debt instruments are to be measured at fair value through profit or loss.
- All equity instruments are to be measured subsequently at fair value. Equity instruments that are held for trading will be measured at fair value through profit or loss. For all other equity investments, an irrevocable election can be made at initial recognition, to recognize unrealised and realised fair value gains and losses through other comprehensive income rather than profit or loss. There is to be no recycling of fair value gains and losses to profit or loss. This election may be made on an instrument-by-instrument basis. Dividends are to be presented in profit or loss, as long as they represent a return on investment.
- While adoption of IFRS 9 is mandatory from 1 January 2013, earlier adoption is permitted.

The Bank is considering the implications of the standard, the impact on the Bank and the timing of its adoption by the Bank.

- *Revised IAS 24 (Revised): 'Related Party Disclosures'*

IAS 24 was issued in November 2009 and it supersedes IAS 24, 'Related party disclosures' issued in 2003. It is mandatory for all periods beginning on or after 1 January 2011. Early application, in whole or in part, is permitted.

The revised standard clarifies and simplifies the definition of a related party and removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities. The Bank will apply the revised standard from 1 January 2011. When the revised standard is applied, the Bank will need to disclose any transaction between its subsidiaries and its associates.

The disclosure exemptions introduced in IAS 24 (as revised in 2009) do not affect the Bank because the Bank is not a government-related entity directly. However, disclosures regarding related party transactions and balances in these financial statements may be affected when the revised version of the Standard is applied in future accounting periods because some counterparties that did not previously meet the definition of a related party may come within the scope of the Standard.

- *'Classification Of Rights Issues' (Amendment To IAS 32), Issued In October 2009*

The amendment applies to annual periods beginning on or after 1 February 2010. Earlier application is permitted. The amendment addresses the accounting for rights issues that are denominated in a currency other than the functional currency of the issuer. Provided certain conditions are met, such rights issues are now classified as equity regardless of the currency in which the exercise price is denominated. Previously, these issues had to be accounted for as derivative liabilities. The amendment applies retrospectively in accordance with IAS 8 'Accounting policies, changes in accounting estimates and errors'.

The application of this standard is not relevant to the Bank.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-a Basis of Preparation of Financial Statements (Continued)

Statement of Compliance (Continued)

b) *New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2010 and not early adopted (continued)*

- *IFRIC 19: 'Extinguishing Financial Liabilities With Equity Instruments'*

IFRIC 19 is effective from 1 July 2010. The interpretation clarifies the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability (debt for equity swap). It requires a gain or loss to be recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments should be measured to reflect the fair value of the financial liability extinguished. The Bank will apply the interpretation from 1 January 2011.

This interpretation is not expected to have any impact on the Bank's financial statements.

- *'Prepayments Of A Minimum Funding Requirement' (Amendments To IFRIC 14)*

The amendments correct an unintended consequence of IFRIC 14, 'IAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction'. Without the amendments, entities are not permitted to recognise as an asset some voluntary prepayments for minimum funding contributions. This was not intended when IFRIC 14 was issued, and the amendments correct this. The amendments are effective for annual periods beginning 1 January 2011. Earlier application is permitted. The amendments should be applied retrospectively to the earliest comparative period presented. The Bank will apply these amendments for the financial reporting period commencing on 1 January 2011.

This amendment is not expected to have any impact on the Bank's financial statements.

- *IAS 1 (Amendment), 'Presentation Of Financial Statements'*

The amendments to IAS 1 clarify that an entity may choose to present the required analysis of items of other comprehensive income either in the statement of changes in equity or in the notes to the financial statements. The Bank presents the details in the statement of changes in equity itself.

The exceptions to International Financial Reporting Standards in compliance with local laws and regulations issued by the Central Bank of Yemen are:

- The adoption of minimum fixed percentages for losses on non performing loans and advances in accordance with the Central Bank of Yemen circular no. 6 of 1996 and circular no. 5 of 1998; and
- The inclusion of the general provision for risk calculated on the performing loans and advances in the general provision for loans and advances rather than equity.

The effect of these deviations is immaterial on the financial statements of the Bank as at 31 December 2010.

2-b Significant Accounting Estimates

The preparation of financial statements requires management to make adjustments, estimates and assumptions that affect the application of policies and reported amounts of the financial assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Estimates considered by the management of the Bank to have a significant risk of material adjustment in subsequent periods primarily comprise provisions for impairment of loans and advances.

The Bank takes into consideration the following factors when determining the provisions for loans and advances and contingent liabilities:

- The overall customer's financial position;
- Risk percentage i.e. the ability of the customer to conduct profitable business activities and collect enough money to pay the debt;
- Value of the collateral and possibility of transferring ownership to the Bank; and
- Cost of settling the debt.

Management Estimates

The estimates and associated assumptions are based on historical experience of the Bank and various other factors that are believed by the Bank to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-c Summary of Principal Accounting Policies

The Bank has applied the following accounting policies, consistently, in dealing with significant items of the Bank's financial statements:

Trade And Settlement Date Accounting

All "regular way" purchases and sales of financial assets are recognised on the trade date, i.e. the date that the Bank commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place.

Foreign Currencies

- (i) The Bank maintains its records in Yemeni Rials which are the Bank's functional and presentation currency.
- (ii) Transactions denominated in foreign currencies are initially recorded in the functional currency at the rate of exchange ruling at the value date of the transactions. Balances of monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into Yemeni Rials at the rate of exchange rate ruling on that date. All realized and unrealized gains or losses resulting from revaluation are taken to "other operating income" or "other operating expense" in the statement of comprehensive income.
- (iii) The Bank does not deal in forward foreign exchange contracts.

Revenue Recognition

- (i) Interest income is recognized in the statement of comprehensive income on the accrual basis using the effective interest rate method. The effective interest rate is established on initial recognition of the financial asset/liability and is not revised subsequently. However, in order to comply with the requirements of the Central Bank of Yemen circular no. 6 of 1996, the Bank does not accrue interest income on non-performing loans and credit facilities. When an account is classified as non-performing, all uncollected interest relating to the three months prior to categorizing the loan as non-performing is reversed from income and recorded as uncollected interest income. Income from investments is accrued on notification of entitlement. Dividend income is recognized when the right to receive payment is established.
- (ii) In accordance with the Central Bank of Yemen circular no. 2 of 2000, any provisions written back are included under "other operating income".
- (iii) Commission and fee income on banking services are recognized when earned.

Cash and Cash Equivalents

For the purpose of preparing the statement of cash flows, cash and cash equivalents consist of cash on hand, cash balances with the Central Bank of Yemen other than statutory reserve balances, demand deposits with other banks, treasury bills and certificates of deposit with the Central Bank of Yemen maturing within three months from the date of acquisition.

Due from Banks and other Money Market Placements

Deposits and balances due from banks are presented at cost after deducting any amount that has been written off and any impairment in their value. All money market and customer deposits are carried at amortised cost.

Treasury Bills

Treasury bills issued by the Central Bank of Yemen on behalf of the Ministry of Finance are stated at their nominal value, adjusted for any unamortized discount outstanding at the reporting date.

Provision for Losses on Loans and Contingent Liabilities

In order to comply with the Central Bank of Yemen circular no. 6 of 1996 and circular no. 5 of 1998, provision is made for specific loans, overdrafts, advances and contingent liabilities, in addition to a percentage for general risks calculated on the total of other loans, overdrafts and contingent liabilities after deducting balances secured by deposits and banks' guarantees.

The provision is determined based on periodic comprehensive reviews of the credit portfolio and contingent liabilities. Accordingly, provision is made in accordance with the following rates:

	2010	2009
• Performing loans including watch loans	1%	2%
• Performing contingencies including watch accounts	1%	1%
• Non-performing loans and contingencies:		
- Substandard debts	15%	15%
- Doubtful debts	45%	45%
- Bad debts	100%	100%

When a loan is known to be uncollectible, after all the necessary legal procedures have been completed, and the final loss has been determined, or if directed by the Central Bank of Yemen upon review of the portfolio, it will be written off by debiting the provision. Loans to customers are presented in the statement of financial position net of provision and uncollected interest. Proceeds from loans and advances previously written off in prior years are credited to "other operating income".

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-c Summary of Principal Accounting Policies (Continued)

Investments

As at the financial statements date, all non trading investments are classified either as available for sale investments or held for maturity investments.

i) Available for sale investments:

Available for sale investments are financial assets that are intended to be held for an indefinite period of time, which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices or that are not classified as loans and receivables, held to-maturity investments or financial assets at fair value through profit or loss. Available for sale financial assets are initially recognised at fair value, which is the cash consideration including any transaction costs, and measured subsequently at fair value with profit and loss being recognised in the statement of comprehensive income, except for impairment losses and foreign exchange gains and losses, until the financial asset is derecognised.

If an available for sale financial asset is determined to be impaired, the cumulative profit or loss previously recognised in the statement of comprehensive income, is recognised in the income statement. However, interest is calculated using the effective interest rate method, and foreign currency gains and losses on monetary assets classified as available for sale investments are recognised in the statement of the comprehensive income. Dividends on available for sale equity instruments are recognised in the statement of comprehensive income in 'dividend income' item when the Bank's right to receive payment is established.

ii) Held to maturity investments:

Where the Bank has the positive intent and ability to hold financial assets to maturity, they are stated at amortized cost less impairment losses. Premiums and discounts on held to maturity investments are amortized using the effective interest rate method and are taken to interest income.

Property, Plant and Equipment

Land and buildings comprise mainly branches and offices. All property, plant and equipment used by the Bank is stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent expenditures are included in the asset's carrying amount or are recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repair and maintenance costs are charged to other operating expenses during the financial period in which they are incurred.

Depreciation

Freehold land is not depreciated. Other property and equipment items are stated at cost or revalued amounts less accumulated depreciation.

Depreciation is provided on all property, plant and equipment, other than freehold land, at rates calculated to write off the cost or revalued amount, less estimated residual value based on prices prevailing at the date of acquisition, of each asset over its expected useful life using the straight-line method at the rates shown below:

• Buildings on freehold land	2%
• Vehicles	20%
• Furniture and equipment	10%
• Computers and software programs	20%
• Security vaults	2%
• Improvements to leasehold property	Years of lease or estimated useful life whichever is lower.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use. No property, plant and equipment were impaired as at 31 December 2010 (2009: nil).

Gains and losses on property, plant and equipment disposals are determined by comparing proceeds with carrying amount. These are included in other operating expenses in the statement of comprehensive income.

Real Estate Properties Acquired from Customers in Settlement of Loans Pending Sale /Collateral Pending Sale

The Bank occasionally acquires real estate in settlement of certain loans and advances. In accordance with the Banks Law No. 38 of 1998 and the Central Bank of Yemen instructions, assets acquired from customers in settlement of loans are included in the statement of financial position under "debit balances and other assets" use the value at which these assets were acquired less any decline in their value. Any decline is charged to the statement of comprehensive income.

Social Security

The employees of the Bank are contributing to the social security scheme in accordance with the Republic of Yemen's Social Insurance Law No. 25 of 1991. The Bank's annual contribution is charged to the statement of comprehensive income.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-c Summary of Principal Accounting Policies (Continued)

Contingent Liabilities and Commitments

Contingent liabilities and commitments, in which the Bank is a party, are presented off statement of financial position, net of margins, under "contra accounts and other commitments" as they do not represent actual assets or liabilities at the reporting date.

Acceptances

Under IAS 39 (revised), acceptances are disclosed on the statement of financial position under "debit balances and other assets" with corresponding liability disclosed under "credit balances and other liabilities". As a result, there is no off statement of financial position commitment for acceptances.

Financial Guarantees Contracts

Financial guarantees are initially recognised in the financial statements at fair value on the date the guarantee was given. The fair value of a financial guarantee at the time of signature is zero because all guarantees are agreed on arm's length terms and the value of the premium agreed corresponds to the value of the guarantee obligation. No receivable for the future premiums is recognised. Subsequent to initial recognition, the Bank's liabilities under such guarantees are measured at the higher of the initial amount, less amortisation of fees recognised in accordance with IAS 18, and the best estimate of the amount required to settle the guarantee. These estimates are determined based on experience of similar transactions and history of past losses, supplemented by the judgement of management. The fee income earned is recognised on a straight-line basis over the life of the guarantee.

Any increase in the liability relating to guarantees is reported in the income statement within other operating expenses.

Financial Assets at Fair Value through profit or loss

This category includes those investments, which are initially recognized at cost and re-measured at fair value. All related realized and unrealized gains or losses are included in the statement of comprehensive income in the period in which they arise. Interest earned or dividends received are included in the interest and dividend income respectively.

Zakat

The Bank pays zakat for the year based on the amount defined in the General Budget Project approved by the Ministry of Finance to the Zakat General Directorate.

Income Tax

Tax liability payable on the Company is calculated according to tax laws, regulation and orders effective in the Republic of Yemen.

Due to the tax accounting nature in the Republic of Yemen, the application of what is stated on deferred tax in the IAS on income taxation, usually does not evolve deferred tax liabilities. In the case of evolved deferred tax assets due to the application of this IAS, these assets are not added unless there are adequate indicators that it will be realized in the near future.

Related Party Transactions

A party is considered related if being able to either control or exercise significant and material influence over the Bank's financial and operating decision making process. Disclosures are made in the financial statements of transactions carried out with related parties such as Board of Directors members, senior management, their families and companies in which they are major owners as well as major shareholders, other than the Government, owning, directly or indirectly, 5% or more of the voting rights. The pricing policies and terms of these transactions are approved by the Bank's management.

Fiduciary Assets

Assets held in trust or in a fiduciary capacity are not treated as assets of the Bank and accordingly are not included in these financial statements

Impairment of Assets

The Bank, at each reporting date, assesses whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Bank makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs to sell or cash generation unit's fair value less costs to sell and its value in use and determined for an individual assets, unless the asset does not generate cash inflows that are largely independent of those from other assets or Bank assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses of continuing operations are recognised in the statement of comprehensive income consistent with the function of the impaired asset. An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount.

2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2-c Summary of Principal Accounting Policies (Continued)

Impairment of Assets (Continued)

That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of comprehensive income unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systemic basis over its remaining useful life.

Offsetting the Financial Assets and Liabilities

Financial assets and financial liabilities are only offset and the resultant net balance is reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and the Bank intends to either settle on a net basis or to realise the asset and settle the liability simultaneously.

3 FINANCIAL INSTRUMENTS

The Bank's financial instruments are represented in financial assets and liabilities. Financial assets include cash balances, current accounts and deposits with banks, treasury bills, investments and loans and advances to customers and banks. Financial liabilities include customers' deposits and balances due to banks. Also, financial instruments include rights and obligations stated in "contingent liabilities and commitments".

3-a Fair Value Of Financial Instruments

Based on the valuation of the Bank's assets and liabilities as stated in the notes to the financial statements, the fair value of the financial instruments do not differ fundamentally from their fair values at the reporting date.

3-b Risk Management Of Financial Instruments

The Bank's business involves taking on risks in a targeted manner and managing the risks professionally. The core functions of the Bank's risk management are to identify all key risks for the Bank, measure these risks, manage the risk positions and determine capital allocations. The Bank regularly reviews its risk management policies and systems to reflect changes in markets, products and best market practice.

The Bank's aim is to achieve an appropriate balance between risk and return and minimize potential adverse effects on the Bank's financial performance.

The Bank defines risk as the possibility of losses or profits foregone, which may be caused by internal or external factors.

Risk management is carried out by a central treasury department (Bank Treasury) under policies approved by the Board of Directors. Bank Treasury identifies, evaluates and hedges financial risks in close co-operation with the Bank's operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments. In addition, internal audit is responsible for the independent review of risk management and the control environment. Risk is inherent in the Bank's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk exposures relating to his or her responsibilities.

The Bank is exposed to credit risk, liquidity risk, interest rate risk and exchange rate risk.

Credit Risk

Credit risk is the risk of suffering financial loss, should any of the Bank's customers, clients or market counterparties fail to fulfil their contractual obligations to the Bank. Credit risk arises mainly from commercial and consumer loans and advances, credit cards, and loan commitments arising from such lending activities, but can also arise from credit enhancement provided, such as credit derivatives (credit default swaps), financial guarantees, letters of credit, endorsements and acceptances.

The Bank is also exposed to other credit risks arising from investments in debt securities and other exposures arising from its trading activities ('trading exposures'), including non-equity trading portfolio assets, derivatives and settlement balances with market counterparties and reverse repurchase loans.

Credit risk is the single largest risk for the Bank's business; management therefore carefully manages its exposure to credit risk. The credit risk management and control are centralized in a credit risk management team, which reports to the Board of Directors and head of each business unit regularly.

In order to comply with the Central Bank of Yemen circular no. 10 of 1997 pertaining to the management of credit risk exposure, the Bank adheres to certain minimum standards in order to properly manage its credit risk.

3 FINANCIAL INSTRUMENTS (CONTINUED)

3-b Risk Management Of Financial Instruments (Continued)

Credit Risk (Continued)

In addition to the standards stated in the above-mentioned circular, additional procedures applied by the Bank to minimize the credit risk exposure are:

- preparing credit studies on customers and banks before dealing with them and determining their related credit risk rates;
- obtaining sufficient collateral to minimize the credit risk exposure which may result from financial problems facing customers or banks;
- follow-up and period reviews of customers and banks in order to evaluate their financial positions, credit rating and the required provision for non-performing loans;
- distributing credit portfolio and balances with banks over diversified sectors to minimize concentration of credit risk

The table below shows the maximum exposure to credit risk for the components of the statement of financial position. The maximum exposure is shown gross, before the effect of mitigation by the use of collateral agreements

	31 December 2010 YR'000	31 December 2009 YR'000
Assets:		
Cash on hand and reserve balances with the Central Bank of Yemen (excluding cash on hand)	10,030,365	9,719,946
Due from Bank	27,533,176	28,792,299
Treasury bills, net	57,660,128	52,587,188
Loans and advances to customers, net of provision	8,273,929	9,369,273
Available for sale investments, net	301,977	216,324
Debit balances and other assets	<u>1,485,022</u>	<u>1,112,729</u>
Total assets	<u>105,284,597</u>	<u>101,797,759</u>

Total credit risk exposure	<u>128,179,713</u>	<u>121,711,735</u>

The Bank manages concentration of risk by distributing the portfolio over diversified economic sectors and geographical locations. Note no. 30 shows the distribution of financial instruments over different economic sectors and note no. 31 shows the distribution of financial instruments based on geographical locations.

Liquidity Risk

Liquidity risk is the risk that the Bank will be unable to meet its payment obligations when they fall due under normal circumstances. To limit this risk, the Bank's management in addition to its core deposit base, manages assets with liquidity in mind, monitors future cash flows and liquidity on a daily basis and has arranged diversified funding sources.

The table below shows the maturity analysis for financial liabilities that shows the remaining contractual maturities:

	----- As at 31 December 2010 -----					
	Less than 3 months YR'000	From 3 to 6 months YR'000	From 6 months to 1 year YR'000	Over 1 year YR'000	Total YR'000

In addition to the above, note no. 28 shows the maturity analysis of assets and liabilities and the net gap between the two.

Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect the future cash flows or the value of the financial instruments. The Bank performs a number of procedures to limit the effect of such risk to the minimum level by:

- correlating interest rates on borrowing with interest rates on lending;
- considering the discount rates for different currencies when determining interest rates;
- controlling the matching of maturity dates of financial assets and liabilities.

The table below shows the Bank's exposure to interest rate risks:

----- As at 31 December 2010 -----

	Less than 3 months YR'000	From 3 to 6 months YR'000	From 6 months to 1 year YR'000	Over 1 year YR'000	Non Interest Sensitive YR'000	Total YR'000

Exchange Rate Risk

Due to the nature of the Bank's activities, the Bank deals in different foreign currencies; hence it is exposed to exchange rate risk. The Bank strives to maintain a balanced foreign currencies positions in compliance with the Central Bank of Yemen instructions and the requirements of the Central Bank of Yemen Circular No. 6 of 1998 which specifies that individual foreign currency positions shall not exceed 15% of the Bank's capital and reserves, and that the aggregate open position for all currencies shall not exceed 25% of the Bank's capital and reserves. In order to comply with the Central Bank of Yemen Circular No. 6 of 1998, the Bank regularly monitors its foreign currency positions and sells the excess funds in foreign currencies to the Central Bank of Yemen at the prevailing rates on the date of sale. The significant foreign currency positions of the Bank are shown in note no. 35.

The Bank had the following significant net exposures to foreign currencies:

	----- As at 31 December 2010 -----

3 FINANCIAL INSTRUMENTS (CONTINUED)

3-c Capital Management

The primary objectives of the Bank's capital management are to ensure that the Bank complies with external imposed capital requirements and that the Bank maintains strong credit ratings and healthy capital ratios. The capital adequacy is monitored on a quarterly basis by the management of the Bank employing techniques based on the guidelines as implemented by the Central Bank of Yemen for supervisory purposes. The required information is filed with the Central Bank of Yemen on a quarterly basis.

The Central Bank of Yemen requires each bank in Yemen to maintain a ratio of total capital to the risk - weighted assets at or above the internationally agreed minimum of 8%. In addition, the Bank is required to maintain a ratio of total capital to the customer deposits at or above 5%.

The total capital of the Bank is divided in two tiers:

Tier 1 capital: which comprises the share capital, statutory reserve and general reserve.

Tier 2 capital: which comprises the revaluation reserves and unrealized gains arising from any changes in fair value of available for sale investments.

Investment in any local bank or finance company is deducted from the Tier 1 and Tier 2 capital. The balance of general provision for loans and advances is added to the Tier 1 and Tier 2 capital.

The risk - weighted assets are measured by means of a hierarchy of four risk weights classified according to the nature of and reflecting an estimate of credit, market and other risks associated with each asset and counterparty, taking into account any eligible collateral or guarantees. A similar treatment is adopted for off statement of financial position exposure, with some adjustments to reflect the more contingent nature of potential losses.

The Bank complied with all the externally imposed capital requirements to which they are subject.

The capital adequacy is calculated as follows:

	31 December 2010 YR' million	31 December 2009 YR' million
Tier 1 capital		
Capital	10,000	9,000
Statutory reserve	2,168	1,857
General reserve	684	523
Total Tier 1 capital	12,852	11,380
Tier 2 capital		
Property revaluation reserve	640	640
Fair value reserve	63	55

Property, plant and equipment depreciation is calculated on the basis of the rates set out in the Council of Ministers' Resolution no. 144 of 1999 in that regard. Freehold land, land leased from the Government and buildings on freehold and leasehold were revalued at their open market value for existing use on 1 December 1999, effective from 31 December 1999, by an independent professional real estate firm. In accordance with IAS 16, the cost and related accumulated depreciation as at 31 December 1999 were eliminated and the revalued amount has been considered to be the new gross book carrying amount.

Paid during the year	(874,586)	(824,041)
Balance at 31 December	<u>418,969</u>	<u>774,586</u>

14 INCOME TAX (CONTINUED)

14-a Charge For The Year

The income tax charge for the year has been calculated on the basis of 20% (2009: 35%) of profit for the year.

14-b Prior Year Tax Assessments

The Bank received on 31 May 2010 the final tax clearance for the income tax liability for the financial year ended 31 December 2009.

14-c Income Tax on Provision for Losses of Loans and Advances

In accordance with article no. 85 of the Banks Law No. 38 of 1998, which came into effect on 27 December 1998, and Article 2-a in the Income Tax Law No. 17 for 2010, any provisions for losses on loans and advances made by a Bank in compliance with the regulations of the Central Bank of Yemen in this respect, are not subject to the provisions of any income tax law and are allowable as a deduction in arriving at the taxable income.

14-d Income Tax on Suspended Interests

Suspended interests are considered part of the provision for doubtful debts in accordance to In accordance with article 85 of Banks Law No. 38 of 1998 and Article 14-a of the Income Tax Law No. 17 for 2010 which states that provisions for losses on loans and advances provided by banks in accordance to the guidelines of the Central Bank of Yemen is not subject to provisions of any income tax when calculating the taxable income.

15 EQUITY

15-a Share Capital

	<i>Number of shares 1000 shares</i>	<i>Value of share YR</i>	<i>31 December 2010 YR'000</i>	<i>31 December 2009 YR'000</i>
Share Capital				
Authorized	10,000	1,000	10,000,000	10,000,000
Declared and paid up	10,000	1,000	10,000,000	9,000,000

15-b Profit Distribution

In accordance with the provisions of the Public Corporations, Establishments and Companies Law No. 35 of 1991, the annual profit of the Bank shall be allocated as follows:

- 15% to statutory reserve;
- 15% to general reserve;
- 65% to the Government for its share of profit;
- 2% to employee's incentives; and
- 3% to employees' social fund.

15-c Surplus On Revaluation Of Property Reserve

The difference between the revalued amounts of the freehold land and the buildings and their book value as at 31 December 1999 had been credited to this account and included in equity.

15-d Statutory Reserve

In accordance with article 12-1 of the Banks Law no. 38 of 1998, 15% of the net profit for the year is transferred to the statutory reserve until the balance of this reserve reaches twice the capital. The Bank cannot use this reserve without the prior approval of the Central Bank of Yemen.

15-e General Reserve

The balance of this reserve can be used for the purposes approved by the Bank.

15-f Cumulative Changes in Fair Value Reserve

In accordance with the provisions of IAS 39: Financial Instruments - Recognition and Measurement, the differences between the fair values and the book values of the "available for sale" investments are recognized in the cumulative changes in fair value until they are sold, collected, disposed off, or until they are determined to be impaired, at which time the cumulative gain or loss previously recognized is included in the statement of comprehensive income.

16 CONTRA ACCOUNTS AND OTHER COMMITMENTS, NET

Credit related commitments include commitments to extend credit, standby letters of credit and guarantees, which are designed to meet the requirements of the Bank's customers.

Commitments to extend credit represent contractual commitments to make loans and revolving credits. Commitments generally have fixed expiration dates or other termination clauses and require the payment of a fee. Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash requirements.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

For the Year Ended 31 December 2010

16 CONTRA ACCOUNTS AND OTHER COMMITMENTS, NET (CONTINUED)

Standby letters of credit and guarantees commit the Bank to make payments on behalf of customers' contingent upon the failure of the customer to perform under the terms of the contract.

The commitments on behalf of customers for which there were corresponding customer liabilities, as of the reporting date, consisted of the following:

	----- As at 31 December 2010 -----

32 TRUST ACTIVITIES

The Bank does not hold nor manage assets for or on behalf of other parties except for the housing project, which is managed on behalf of the Government.

33 CONTINGENT ASSETS AND LIABILITIES

The Bank has filed a number of legal cases with the Public Fund Court and the Commercial Preliminary Court against former employees and customers of the Bank relating to irregularities and default in settlements of amounts due respectively. Where there are legal cases filed against the Bank at the respective courts, management fully and/or partly provided for such cases in the financial statements. In some of the cases, although court decisions were made in favour of the Bank, their executions have not been effected, whereas the other cases are still pending in the courts.

2006 2007 2008 2009 2010

34 SIGNIFICANT FOREIGN CURRENCIES' POSITIONS

The Central Bank of Yemen circular no. 6 of 1998 establishes limits for positions in individual foreign currencies as well as an aggregate limitation for all currencies. These limits are 15% and 25% of capital and reserves. The Bank had the following significant net exposures denominated in foreign currencies:

	-----31 December 2010-----		-----31 December 2009-----	
	%	YR' 000	%	YR' 000
United States Dollar	(0.95)	(129,135)	(15.76)	(1,902,691)
Pound Sterling	0.03	3,982	(0.01)	(1,335)
Euro	0.21	28,597	0.54	65,080
Saudi Rial	0.40	53,760	1.66	200,888
Swiss Franc	0.20	26,986	0.11	13,083
Japan Yen	0.11	14,560	0.10	12,455
United Arab Emirates Dirham	0.07	9,263	8.54	1,030,604
Other	0.00	19	-	18
Aggregate foreign currency positions	<u>0.07</u>	<u>8,032</u>	<u>(4.82)</u>	<u>581,898</u>

The US Dollar exchange rate as at 31 December 2010 was 213.80 YR/USD (31 December 2009: 207.31 YR/USD).

35 CAPITAL COMMITMENTS

Capital commitments at 31 December 2010 amounted nil (31 December 2009: YR 446 million).

36 PROGRAMME FOR THE DEVELOPMENT AND IMPROVEMENT OF THE BANK

During the year 2009, the Bank has accomplished implementing most stages related to part one of the modernization and development programme. The Bank is in the process of continuing part two of the programme involved with implementation of structuring and technology part. The Bank is financing the cost of both parts of this programme from its own financial resources.

37 COMPARATIVE FIGURES

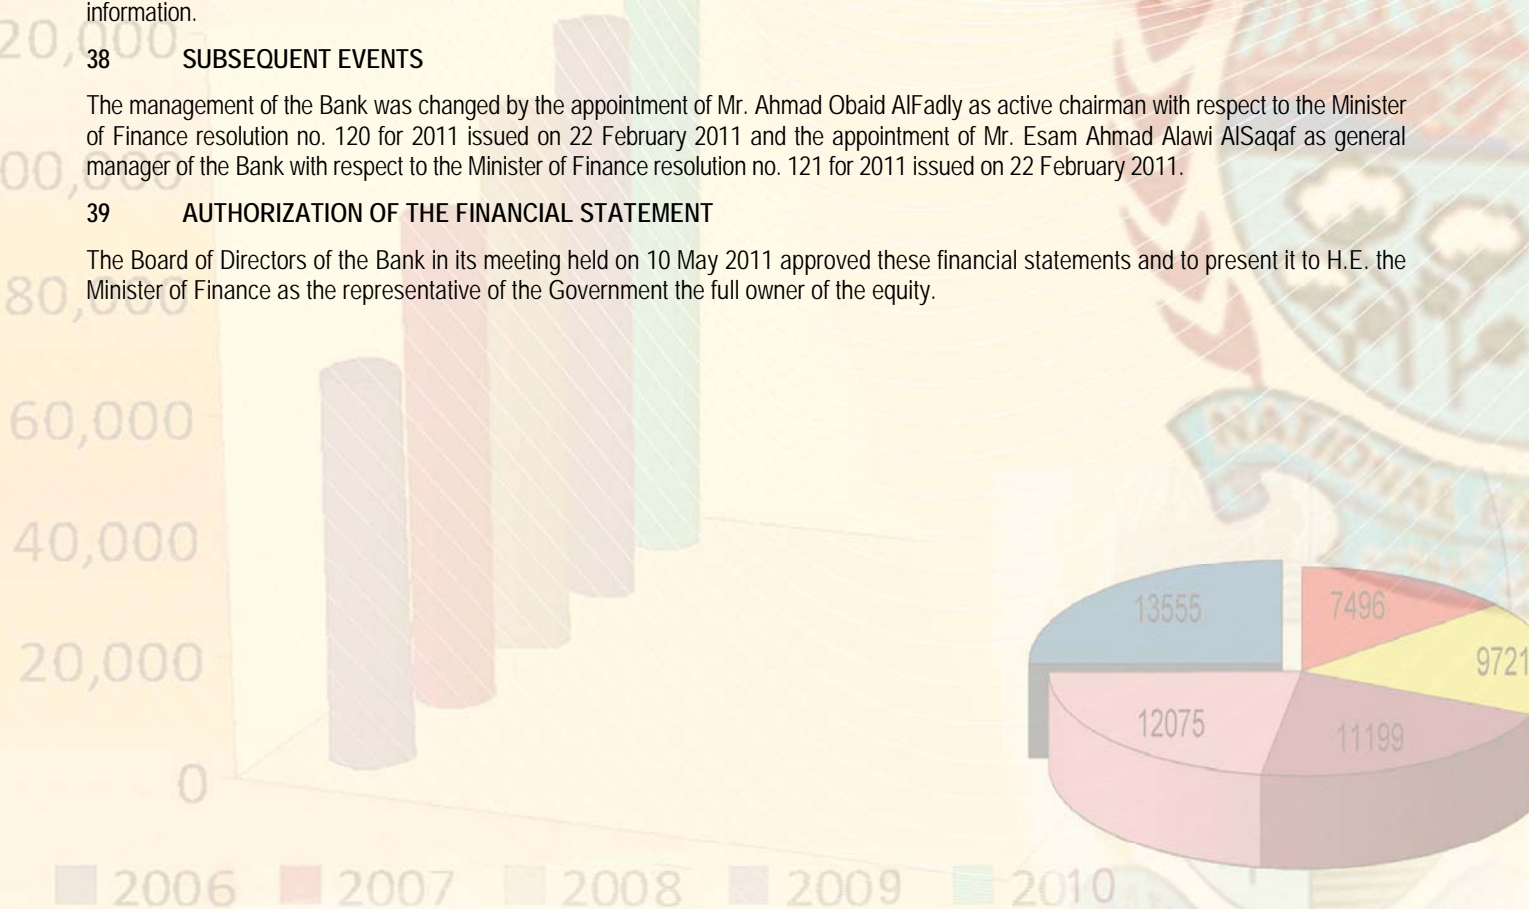

Except when a standard or an interpretation permits or requires otherwise, all amounts are reported or disclosed with comparative information.

38 SUBSEQUENT EVENTS

The management of the Bank was changed by the appointment of Mr. Ahmad Obaid AlFadly as active chairman with respect to the Minister of Finance resolution no. 120 for 2011 issued on 22 February 2011 and the appointment of Mr. Esam Ahmad Alawi AlSaqaf as general manager of the Bank with respect to the Minister of Finance resolution no. 121 for 2011 issued on 22 February 2011.

39 AUTHORIZATION OF THE FINANCIAL STATEMENT

The Board of Directors of the Bank in its meeting held on 10 May 2011 approved these financial statements and to present it to H.E. the Minister of Finance as the representative of the Government the full owner of the equity.
